DESIGNED FOR THE WAY YOU LIVE

What's your kitchen style?

Given how much time we spend in them – cooking, celebrating or just hanging out – today's kitchens must function for the way we live, but more importantly, they must feel personal.

So when it comes to defining your personal style, what says "home" to you? Do you lean more towards a modern aesthetic or does a traditional inspired setting soothe your soul? No matter where you are on the style spectrum – with Kitchen Craft – you're sure to find a look that's a reflection of you and your home.

Scandinavian Inspired

The simple life

This stunning kitchen celebrates the core principals of Scandinavian design with a clean-line, minimalistic setting that seeks to combine functionality with beauty.

To balance the bright white walls, a nature inspired colour palette was selected for the cabinetry featuring a soft watery blue and a warm light toned maple island.

Additional texture was threaded through the kitchen by lining maple Frappe within the wall open shelf area and behind the glass doors.

GIVE YOUR MODERN KITCHEN AN EDGE!

These sleek aluminum glass doors are available in a variety of profile and insert options. Visit our website for full product offering.

Modern farmhouse

The best memories are often made over a meal. Make your island equally unforgettable with a statement piece like this. The artisan brush strokes of the Weathered Slate finish give this island a sense of history, like it's always been there, yet the aluminum glass doors add a modern edge.

01

01

A Little Bit Country. The beefy posts and open shelving at the end of the island give the appearance of a farm table.

02

Think Differently. Deep drawers are an optional location to house your plates. Drawer plate organizers keep plates in place and allow you to easily carry the stack right over to the table.

02

There's always room for one more

If you have a big family or piles of friends who love to drop by, consider incorporating banquette seating into your kitchen. The benefit of opting for bench seating is that there's room for everyone to congregate around the table.

style tip

Look at how this built-in banquette seating creates a cozy yet chic dining area that's as perfect for after-school homework as it is for a 6-person dinner party. And the best part? It's practical too.

Clever efficiency

Kitchen Craft cabinets have the design flexibility to create beautiful, functional kitchens at any size. This u-shaped kitchen features several deep drawers that provide an abundant amount of storage. To maximize every square inch of space, shallow cabinets have been placed at the end of each cabinet run that face the adjacent living room. This provides additional storage as well as a soft transition between living spaces.

KITCHEN

DESIGN TIPS

Make a compact space smart and stylish

1 Keep It Light. If you have a short window like this and space is premium, wall cabinets can be placed above. Frosted glass doors create the illusion that the window extends upward. Lighting inside the cabinets also creates a nice glow at night.

2 Take A Seat. Extending the countertop on your peninsula is a great way to create an eat-in bar area. It's the perfect spot for meals on-the-go or for the kids to do their homework.

EASY LIKE

01

Casual comfort

From the soft taupe paint to the beach planked floor and white cabinets, this shaker kitchen is bathed in a warm, monochromatic colour palette. This was a purposeful design choice as the goal of this renovation was to create a space that is open and welcoming for big family get-togethers.

02

01

Double Duty. This island is all business in the front with the dishwasher conveniently placed next to the sink. To save counter space, the microwave has been built into the island as well. The overhang on the back comfortably seats guests for entertaining.

02

Kitchen Party. This little nook makes an excellent beverage centre. The tall wall cabinets feature glass doors that allow the homeowner to display their beautiful serving dishes and stemware.

A character study

In this kitchen, the homeowners desired a modern take on the rustic farmhouse style. The pairing of the Pearson shaker door style with the Weathered Slate finish brought this look together. The hand brushed technique used to create this finish is in keeping with the grey trend of today, yet the rich character from the brush strokes offers a comfortable heritage feel, adding to that country flavour.

The modern rustic feel is further complemented with the sleek look of the open shelving and this stunning wood hood. Its presence grounds the room while exuding charm.

door style: Pearson

Refined elegance

Featured in Soho Ore, this striking vanity is a modern take on mid century design with its black streamlined woodgrain texture. Installing the wall hung vanity within this niche creates a floating, airy affect.

BATH

style tip

The retro vibe of this bath is elevated with this vintage graphic wallpaper and sparkling chrome accents. The high contrasting white solid surface and vessel bowl sink sets off this brilliant vanity.

When a painted finish is specified, the center panel may be constructed of Medium Density Fiberboard (MDF). MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction.
